Subject: Re: DEMAND TO COMMISSIONERS AND SHERIFF DAVID GEE

To All:

Today I still am trying to not be illegally obstructed by "Government persons" doing what the Church members legally elected me to do! I never in my Duty as elected to my Committees by the full members and thereby must be removed legally by the Bylaws and the member have 1. Approved of Deputies Jeffers and Howlett and Smoak and Corbin blocking members seeing the Church/School books and money trail! This obstruction was and still is an ongoing TORT and violation of The Law! Also it still is the basis for the continued obstruction of me from my kids!

The Statue Of Limitations cannot expire due to ongoing crimes and frauds by continuing acts of torts by non members !

I am by the law still the Supreme Court of the Church investigator as elected by the members in 1994 and never legally removed !

On the other hand your support of alias trustees Jeffers and Howlett is illegal because my Committee did not nominate them prior to a church approved vote!

What say you to trying to arrest me today for trying to file a proved honest criminal report and yet you've aided and abetted the criminals still illegally in their torts !

Commissioners after your meeting today I spoke briefly to Chairman Mark Sharpe and advised him "This Dad wants Justice"!

Commissioner Miller I heard you say you are a Baptist Deacon so how can you aid and abet deputies blocking me as the Superior To the Deacons per our Bylaws!

Where is the respect to all citizens the commissioners spoke about today ?

As deputies they cannot be members but as individual they can with only one vote! Instead under alias color of law the stole positions, concealed their crimes and then made up false charges against me to abduct my kids in 1999 and since!

What say you now !!!?

Commissioners and Hillsborough Sheriff David Gee:

Still have not heard from you and how that now after proving the intentional conspiracy and sham against me and my church who elected me to speak for them since 1994 by your acts and the actions of John Grant with Jim Norman and Pat Bean and Renee Lee and others is going to right the wrongs your sham has done including since 1999 the intentional and planned abduction of my kids to distract and to scare and intimidate those who stood and elected me!

Now what say you? You missed my request for a reply from you by last night to my email below !

How are you going to dance around this case and what I reported as a crime against the members since 10/1994 when it was admitted from the Pulpit that money was diverted for personal use and tax evasion as a CPA advised the act and acts were putting the Not For Profit at risk! Your deputies block my investigation of these acts since 10/1994 and then proceeded to abduct my kids and slander my reputation and bribe judges, politicians and others including law enforcers to conceal the sheriff deputies Jeffers, Howlett, Smoak and Corbin and others that Grant, Gibbs, Gee, Gary Terry, Mark Ober and Pam Bondi still through the McDarby visits to me still "impede" my assembly with my Church and kids as their elected Supreme Court investigator of the criminals!

Why do you let the Corruption continue? Do you want to go to jail also as a contributor to their crimes!

Elections are coming and this Dad Wants Justice!

Your immediate reply is required!
